FEB 2018

RightsCon
Toronto 2018

Draft Program Session List

MAY 16 - 18, 2018
THE BEANFIELD CENTRE
AT EXHIBITION PLACE
TORONTO, CANADA

BROUGHT TO YOU BY accessnow

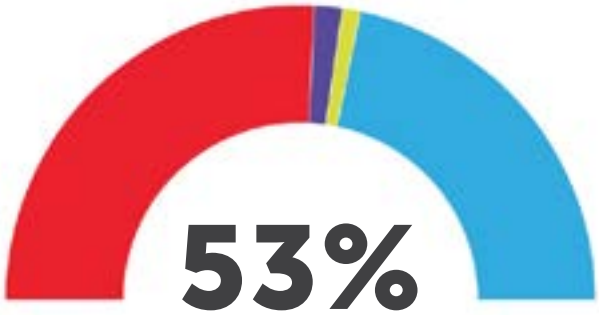

RightsCon (rightscon.org) is the world's leading conference on human rights in the digital age, bringing together business leaders, policy makers, general counsels, government representatives, technologists, and human rights defenders from around the world to tackle pressing issues at the intersection of human rights and digital technology. This year, RightsCon Toronto will include three full days of programming to tackle some of today's most challenging issues.

With the unprecedented 450+ sessions and 2,000+ participants anticipated, our global community will deliver the biggest program in RightsCon history, offering unparalleled opportunities in 3 full days to engage with community leaders in sessions, private meetings and discussions, satellite events, parties, social events, and more.

Here's an early taste of what to expect this year. **Get your tickets here**.

Sessions are organized by themes under which the proposals were submitted in the alphabetical order of organizer's affiliations. Participants can use the original proposal ID number to navigate the program. Sessions listed include multiple different format types, including lightning talks, merged sessions, roundtables, and more. Sessions and their titles are subject to change ahead of the final RightsCon Toronto program.

Rightscon is brought to you by accessnow

Access Now (accessnow.org) defends and extends the digital rights of users at risk around the world. By combining direct technical support, comprehensive policy engagement, global advocacy, grassroots grantmaking, and convenings such as RightsCon, we fight for human rights in the digital age.

Draft Program Session List

Artificial Intelligence, Automation, and Algorithmic Accountability

RightsCon Toronto 2018

Session Title	Session ID	Affiliation
A turn to artificial intelligence in governing public and private speech online	97	Alexander von Humboldt Institute for Internet & Society (HIIG)
Algorithmic testing from the outside: convening on global standards to get and share data	408	AlgorithmWatch
Protecting the right to non-discrimination in machine learning	98	Amnesty International
New tools for visualizing communities, projects, and resources: Inspiring engagement and exploration	644	Berkman Klein Center for Internet & Society, Harvard Law School
Teaching AI to Explain Itself	534	Berkman Klein Center for Internet & Society
Don't build Infra, Build Applications	104	BNP Paribas CIB
Auditing Algorithms	306	Brennan Center for Justice, NYU School of Law
Democratizing AI: Citizenship, Free Expression and Artificial Intelligence	478	Canadian Journalists for Free Expression (CJFE)
Moderate Your Expectations: Capabilities and Limits of Automation in Content Moderation	470	Center for Democracy & Technology (CDT)
Digital Rights are LGBTQ Rights: or What to do When your Content Turns Against You	167	GLAAD
A Canadian position on AI and Human Rights: developing a policy position that promotes and protects human rights.	762	Global Affairs Canada
Mobilising the might of rights: A human rights based approach to AI	479	Human Rights Centre, University of Essex
Do Bots Have Rights? Do They Threaten Rights?	483	Human Rights Watch
AI: Lethal Autonomous Weapons Systems and Peace Time Threats	769	ICT4Peace Foundation
Robots and Rights: Exploring the Impacts of Automation on the Future of Work	111	International Corporate Accountability Roundtable
Artificial Intelligence: Governance and Inclusion	364	ITS Rio (Insitute for Technology and Society of Rio de Janeiro)
Level Up: Exploring the 21st-century toolkit for preserving human rights in the age of artificial intelligence	365	Michigan State University, Open Society Foundation (OSF), Human Rights Data Analysis Group
Accountability for AI – Remediating Bias in Machines	524	Microsoft Corporation
Some Like it Bot: Can AI Strengthen Global Democracy?	603	National Democratic Institute
Beyond the Hype Cycle: What does Blockchain Mean for Human Rights Online?	598	National Democratic Institute
Open by Default: why AI ethics, privacy activists and open data activists need each other to succeed	738	Omidyar Network
Electoral Choices and Artificial Intelligence: The Need for Transnational Collaboration in Africa	45	Paradigm Initiative
Can GDPR protect you from AI? What GDPR can and cannot do	348	Privacy International

Draft Program Session List

Artificial Intelligence, Automation, and Algorithmic Accountability

RightsCon Toronto 2018

Session Title	Session ID	Affiliation
How algorithms & IA mold the relationship between producers and readers/users and how we can preserve pluralism & freedom of information	165	Reporters without Borders
Algorithmic transparency: why is it important and how can it be achieved?	661	SFLC.in
Machines That Learn: Can They Also Be Taught Human Values?	38	Software & Information Industry Association (SIIA)
Prioritizing Human Well-Being for Economics and AI	392	The IEEE Global Initiative on Ethics of Autonomous and Intelligent Systems
Exploring implications of Big Data and Artificial Intelligence for building inclusive Knowledge Societies and achieving SDGs	110	UNESCO
AI'll Be Back: Legal and Ethical Implications With Everyday Uses of Artificial Intelligence	122	University of Ottawa
Talking the Talk: How libraries, media, and the public can steer algorithmic accountability, model interpretability, and AI ethics (but only after understanding the lingo and research incentives)	706	University of Washington - Seattle
The Robot Wars: Securing Your Drones, RoboButlers, and Sexbots from Prying Eyes.	716	University of Waterloo
Overcoming the black box problem: Scrutinizing automated decisions in the real world	449	Upturn
Machine learning, human understanding: AI and access to knowledge	653	Wikimedia

Civic Tech, Citizenship, and E-Governance

Session Title	Session ID	Affiliation
Amnesty Decoders: on small tasks, big data and massive engagement	320	Amnesty International
Accessing Government Services: Shame, Disrespect, and User Experience	525	Brookfield Institute for Innovation + Entrepreneurship
Resistance or cooperation? A look at civic tech movements and their relationships with governments	584	Civic Tech Toronto, g0v.tw, Munk School of Global Affairs at University of Toronto
Exploring the future of civic tech as part of government and global civil society	468	Code for Canada
Using Blockchain Technologies to Deliver Resources to Internally Displaced Populations	747	Cornell University
