# RightsCon Brussels 2017

---

## Draft Program

v1.0 as of FEB 13 2017

---

MARCH 29 - 31, 2017  
CROWNE PLAZA BRUSSELS  
LE PALACE

**RightsCon ([rightscon.org](http://rightscon.org))** is the world's leading event on the future of the internet. Convening civil society leaders, business visionaries, government representatives, activists, legal experts, technologists, and more from across the globe. This year, RightsCon Brussels will include three full days of programming to tackle some of today's most challenging issues.

With over 200 sessions and more than 1,000 participants anticipated, RightsCon 2017 will provide unparalleled opportunities to engage with community leaders in sessions, private meetings and discussions, satellite events, parties, movie screenings, and social events.

Here's an early taste of what to expect this year. **[Get your tickets here.](#)**

Sessions are organized by ID number (a helpful identifier for participants to differentiate sessions and navigate the program) and format.

The program is made up of:

---

▶ **Program Sessions:** Panel talks, fireside chats, workshops, contentious debates, fishbowls, and roundtable discussions — these interactive and participatory sessions use dialogue and collaboration to drive outcomes in pressing issue areas. These sessions run either 60 or 75 minutes in length.

---

▶ **Lightning Talks:** Engaging, dynamic, and poignant talks introduce an emerging issue, event, or perspective to new audiences. These short 8-15 minute talks can be catalysts for future collaboration between participants.

---

▶ **Tech Demo:** Fast-paced introductions to exciting new products or projects helping defend and extend the digital rights of global users at risk. World-leading designers and technologists present these 8-15 minute demonstrations in the Demo Room.

---

Rightscon is brought to you by  **accessnow**

**Access Now ([accessnow.org](http://accessnow.org))** defends and extends the digital rights of users at risk around the world. By combining innovative policy, user engagement, and direct technical support, we fight for open and secure communications for all.

The following list is categorized in six themes. Chosen by the session leader when first proposed, the themes are a temporary means of organization. The final program will be organized by 20+ official Program Tracks, making the conference easier to navigate for participants. Stay tuned for these tracks to be announced!

## ▶ TRADE, BUSINESS, AND HUMAN RIGHTS

Session Title	Session ID	Affiliation	Format
Mapping digital rights in Middle East and North Africa: ILA visual tool for assessment and comparative analysis	14	Hivos	Lightning Talk
Human rights after Arab Spring in Palestine	20	Independent	Lightning Talk
Trade agreements and electronic commerce—the users' perspective	23	Electronic Frontier Foundation (EFF)	Program Session
FutureTDM and the right to mine	25	Open Knowledge International/Lund	Lightning Talk
Online access to affordable medication: Human rights law as the highest standard for cyber rule-making and a new avenue for Internet activism	29	Prescription Justice and PharmacyChecker.com	Program Session
Human rights impact assessments: What actually happens?	36	BSR (Business for Social Responsibility)	Program Session
Taking forward the Multi-stakeholder debate	41	UNESCO	Program Session
Requests to private intermediaries: How can due process work across borders?	120	Internet & Jurisdiction	Program Session
Black boxes vs. humanity: The implications of proprietary algorithms on individual agency	122	Onlinecensorship.org	Lightning Talk
Ranking Digital Rights 2017 Corporate Accountability Index: European launch	145	Ranking Digital Rights	Program Session
Busting digital rights myths	160	Asociatia pentru Tehnologie si Internet (ApTI)	Program Session
What role could IT entrepreneurs play in strengthening liberal democracy in Europe?	161	Global Public Policy Institute (GPPi)	Program Session
Towards a Priva-TISA-tion of human rights?	163	European Digital Rights (EDRi) and Public Citizen	Program Session
Looking for a meaning — Explaining our rights in post-truth times	164	Centrum Cyfrowe	Program Session
Strengthen the effectiveness and connectivity between corporations' and civil societies' transparency report	174	Taiwan Association for Human Rights	Program Session
How bitcoin can change human right scenario	178	Threatened Voices, Curious Dhaka, WaterAid Bangladesh	Lightning Talk
The liability of internet service providers for infringements of IP rights on internet in Serbia and the Western Balkans region	210	Law office ZMP	Lightning Talk
Human rights in the age of artificial intelligence: Lessons from a corporate human rights impact assessment on the human rights impacts of big data, machine learning, and AI	224	Article One	Program Session
Legal Hackers – Applying the hacker ethic to human rights	234	Maastricht University Faculty of Law	Program Session
Public private partnerships for the planet	241	Motiv Power Systems	Lightning Talk
Scaling up freedom: Collaborative approaches to using technology to eliminate forced labour in supply chains	244	The Freedom Fund	Program Session

## ▶ TRADE, BUSINESS, AND HUMAN RIGHTS

Session Title	Session ID	Affiliation	Format
Committing as a company: Industry perspectives on embedding human rights within corporate decision-making processes	248	Yahoo! Inc.	Program Session
How do we keep the lights on in this industry? A conversation with Ushahidi COO	272	Ushahidi	Lightning Talk
Building businesses that we can buy into and believe in: Discussing what it means to profit from privacy-friendly, open-source technology and mutual respect for our fellow humans.	275	Least Authority	Program Session
Trade secrets and algorithms as barriers to IP social justice	282	Center for Democracy and Technology (CDT)	Lightning Talk
Side Dish Regulation in Africa: When ICTS are regulated outside the mainstream	304	Kenya ICT Action Network, Berkman Klein Center for Internet and Society	Program Session
Economic, cultural, and social rights & the internet: the battle in the struggle for human rights	349	Association for Progressive Communications (APC)	Program Session
An internet shutdown master control program?: Towards a new documentation and info sharing network on internet shutdowns	385	Multiple Organizations	#KeptOn Summit
Sanctions & human rights: What we can learn from Iran and Cuba	388	ASL19	Program Session
Mapping Palestine	395	Rebuilding Alliance	Program Session
Private sector responses to real world threats	404	Access Now	Program Session
Holding algorithms accountable to protect fundamental rights	409	AlgorithmWatch	Program Session
Linking trade agreements with adequacy decision: What risk for data protection?	437	Access Now	Program Session
EU export controls — policy posturing or real-world impact?	439	Access Now	Program Session

## ▶ FREEDOM OF EXPRESSION

Session Title	Session ID	Affiliation	Format
Towards a pan-African commitment to freedom of expression online	31	Paradigm Initiative Nigeria	Program Session
Encryption and safety of journalists in digital age	40	UNESCO	Program Session
Making Facebook pay (for the news)	59	OpenMedia	Lightning Talk
Neither takedown nor laissez faire: New pro-speech responses to hatred online	71	Dangerous Speech Project	Program Session
Opportunities & risks: Harnessing the digital world to facilitate meaningful participation among children in Europe?	73	Eurochild	Lightning Talk
Internet freedom in Iran: A Rouhani retrospective	74	Small Media	Program Session
Digital whistleblowing and investigative journalism manifesto	87	Free Press Unlimited	Program Session
Chatbots for journalists and news media	88	Free Press Unlimited	Lightning Talk
Protecting freedom of expression in a complex world: The role of tribunals in upholding progressive international standards	100	Columbia Global Freedom of Expression	Program Session

## ► FREEDOM OF EXPRESSION

Session Title	Session ID	Affiliation	Format
Jurisdictional scope of content restrictions: should content restrictions be limited to geographical borders?	121	Berkman Klein Center / Doughty Street Chambers	Program Session
Reaching the margins through online media participation during election season	130	Zamaneh Media	Lightning Talk
Human rights' next frontier: How to fight criminalisation of online activism: Freedom of expression and online activism in Bahrain and the role of the EU and EU Member States governments' support	142	Bahrain Center for Human Rights	Program Session
Content regulation and private ordering at Internet governance institutions	172	Non-Commercial Users Constituency at ICANN	Program Session
Threatened voices: How technology can help	175	Curious Dhaka / Global Voices / WaterAid Bangladesh	Lightning Talk
Fighting words: Firsthand lessons from former extremists	176	Anti-Defamation League: Center for Technology and Society	Program Session
Collaborative models in the fight against fake news in the digital age	179	Amnesty International	Program Session
Online hate speech: Identification and strategies v. 2.0	217	Centre for Communication Governance at National Law University, Delhi	Program Session
Navigating through mine fields: Defamation, libel and slander in an internet era	219	Center for Technology and Society (CETYS)	Program Session
More than a story: Beyond surveillance, every experiment on how to control social media from trolls to false DMCA claims	226	Fundación Andina para la Observación y Estudio de Medios, Fundamedios	Program Session
Freedom of expression: Countering hate speech and violent extremism online	230	Zambia Police Service	Program Session
Why give up freedom to fight terrorism?	232	EDRi	Program Session
Kazakhstan's global crackdown on free press	259	EFF	Lightning Talk
Getting to know the Global Network Initiative	260	Global Network Initiative	Program Session
Digital occupation: Policies of silencing in the Palestinian case	267	7amleh-Arab Center for Social Media Advancement	Program Session
Connect. Engage. Mobilize: Reaching a mass audience and effecting change through digital platforms	280	Psiphon Inc	Program Session
Free Speech Unlimited	281	Human Rights Foundation	Program Session
What's Trump got to do with it: How global LGBTQI activists hold the line in the face of government repression	287	Astraea Lesbian Foundation for Justice	Program Session
TOS as Law: When governments rely on terms of service, what are your options?	288	CDT	Program Session
Taking #AfricanInternetRights to the next level	303	APC	Program Session
Algorithms, memory and oblivion in Latin America	317	Derechos Digitales	Program Session
Fighting for free speech: Takedowns, censorship, and government demands in the real world	334	Automattic, Inc	Program Session
Should we have a right to record?	335	WITNESS	Program Session
Resisting content regulation in the post-truth world: How to fix fake news and the algorithmic curation of social media?	338	University of Amsterdam / Center for Internet & Society (Bangalore)	Program Session

## ► FREEDOM OF EXPRESSION

Session Title	Session ID	Affiliation	Format
Livestreaming matters: Policy and on-the-ground dilemmas	342	WITNESS	Program Session
Trump, Brexit & the future of independent media & digital rights activism	346	Cross-Pollinate Consulting / Independent Consultant	Program Session
Emergency response for journalists	347	Committee to Protect Journalists (CPJ)	Program Session
Global internet freedom primer: Newest trends in online censorship, surveillance, and activism	351	Freedom House	Program Session
Human rights and countering violent extremism online: Critical questions for platforms and governments	359	Centre for Internet & Society	Program Session
Protect the right to link!	363	Wikimedia Foundation	Lightning Talk
Are naked bodies harmful? Sex, law, and digital rights	367	Point of View	Program Session
Technology, oil, and dissent: Responding to technology-based silencing of dissidents in the Arab Gulf countries	373	Bahrain Watch	Lightning Talk
A dangerous union: State and corporate partnership and what it means for civil liberties	375	Media Matters for Democracy	Program Session
Digibak: Digital activism in developing nations vs. demagogues, deceptions and death threats	377	DAKILA - Philippine Collective for Modern Heroism	Lightning Talk
Panama Papers — Knowing the reality of the country: A point of view from Panamanian journalists and lawyers.	386	IPANDETEC	Lightning Talk
The right to be forgotten and global removals: Jurisdiction, due process, and impacts on freedom of expression	403	ITS Rio	Program Session
Changing Iran, one app at a time!: Learn about Iran's first do-good apps focusing on rights, equality, and access to information	410	United for Iran	Lightning Talk
Countering online hate: Harnessing the power of innovation to protect and empower those targeted by online hate	415	Global Affairs Canada	Program Session

## ► DIGITAL INCLUSION AND DIVERSITY

Session Title	Session ID	Affiliation	Format
Gender diversity and internet governance in Africa	39	Alibeth Consults	Lightning Talk
Mapping land rights: Using digital technologies to protect the living forest with the Sarayaku community of Ecuador	53	Center for Justice and International Law	Program Session
Is digital civility a unicorn of the modern Internet?	60	Microsoft	Program Session
Making digital rights young again: How to engage today's youth	110	Cooperation & Development Network Eastern Europe (CDN) / UNESP, Fonias Jurua academic project	Program Session

## ► DIGITAL INCLUSION AND DIVERSITY

Session Title	Session ID	Affiliation	Format
#NoFilter identity: Uniting tools and communities to empower personal narratives	127	OpenArchive	Program Session
From ad hoc to prepared: Developing an anti online harassment infrastructure	131	Hollaback!	Program Session
Will-o-the-Wisp: The perceptions of eGovernance and its application for development	170	The Fletcher School of Law and Diplomacy, Tufts University	Program Session
Leveraging new sources of data for human rights protection without harming the individual	180	Cambridge University	Program Session
"The Four Finger Rule": The impact of sexuality censorship on society	185	EFF	Program Session
How effectual are mobile apps for women's safety?	192	Centre for Internet and Society, India	Program Session
Towards the web women want: How can we bring together gender and ICT policy advocacy?	194	Web Foundation	Program Session
Women in Wikipedia: How to organise Wikipedia Edit-a-thons	197	Feminism in India	Lightning Talk
Feminist taking over of the web using ICTs	198	Hidden Pockets	Program Session
Privacy in public (libraries)	201	International Federation of Library Associations and Institutions	Program Session
Access to rights online: Digital gap for disenfranchised and marginalized communities	202	Sinar Project	Program Session
Your algorithm can't contain us! Period trackers in the developing world	263	Coding Rights	Program Session
What frontline human rights defenders want donors to know: A funder-activist dialogue	291	Astraea Lesbian Foundation for Justice	Program Session
Algorithmic discrimination: What are the real harms and real solutions?	296	Future of Privacy Forum	Program Session
Coding with conscience: The role of ethics in programming	325	CDT	Program Session
Online violence against women: Is there a global north & south divide?	362	Digital Rights Foundation	Program Session
Web annotation as a right	382	Janastu.org	Lightning Talk
Civil society in the global digital policy agenda: Update on the G20 process and setting the way forward 2017-2018	396	CSISAC - Civil Society Council at the OECD	Program Session
Media, algorithms, and democracy	408	European Broadcasting Union (EBU)	Program Session
Secure UX: How design methodologies build safer online communities	414	Access Now	Program Session
Innovation and inclusion: What is the role of emerging platforms in supporting digital democracy?	416	Global Affairs Canada	Program Session
Open and closed: New challenges for human rights reporting in hostile spaces	420	Nuba Reports	Program Session

## ▶ DATA PROTECTION PRIVACY AND DIGITAL SECURITY

Session Title	Session ID	Affiliation	Format
Information. What are they looking at?	3	Freelance	Screening
The internet does not have to be centralized: Let's explore how and why it should be decentralized	10	Cozy Cloud	Lightning Talk
Police DNA databases: What safeguards are needed?	15	GeneWatch UK	Program Session
Inside Facebook algorithmic factory	17	SHARE Foundation	Lightning Talk
Surveillance Whack-A-Mole: How governments arbitrage legal boundaries to surveil its people	21	emptywheel.net	Program Session
Solving personal data privacy issues by sharing more – The Internet of Me	48	Digi.me	Lightning Talk
Patterns of consent: Rethinking how services ask for data	52	Projects by IF	Lightning Talk
When is it ethical to evade law enforcement surveillance?	75	Private Internet Access	Program Session
Information controls in East Africa – Challenges for civil society	79	Small Media	Lightning Talk
Cross border access to evidence / encryption	107	EDRi	Program Session
Influence of anti-extremism laws in post-soviet countries on privacy and internet freedom	109	PF "Civil Initiative on Internet Policy"	Program Session
Monetising your privacy: Concerns in the post-truth era of online publishing	111	EDRi	Program Session
The algorithmic golden path to inequalities and surveillance capitalism	112	EDRi	Program Session
Rough road ahead: What the Trump administration means for internet freedom	114	EFF	Program Session
¿Quién Defiende Tus Datos? 2016: Holding telecoms accountable and encouraging best practices through rating reports	115	EFF	Program Session
The internet of human rights-invading things	119	Access Now	Program Session
Bad bears: State-sponsored hacking in Russia	126	Vision of Tomorrow	Program Session
On SORM, a system of Russian online surveillance	134	Author of The Red Web	Lightning Talk
A silent mole in a dark cave: the case of mass surveillance in Peru	154	Hiperderecho	Lightning Talk
Behind the scenes of Sarawak Report	158	Sarawak Report, London	Lightning Talk
What is happening in Crimea with journalists and human rights defenders in terms of digital security	181	ISC project	Lightning Talk
EuDEco: The value of data reuse in the data economy	187	ROOTER	Lightning Talk
Security and online dating	207	ARTICLE 19	Program Session
Big isn't always bad: Balancing social gain against privacy protection in a big data world	209	Vodafone	Program Session
Data protection "adequacy" in Latin America: How do Argentina, Colombia and Mexico really fare against the EU data protection standards?	223	SonTusDatos (Artículo 12, A.C.)	Program Session
Surveying surveillance in the EU	233	Access Now	Program Session
Help, we are under attack! A peek behind the screens of rapid responders	246	Digital Defenders Partnership, Hivos	Program Session

## ▶ DATA PROTECTION PRIVACY AND DIGITAL SECURITY

Session Title	Session ID	Affiliation	Format
In search of rights-respecting freedom of expression and privacy laws	257	Global Network Initiative	Program Session
MyData: Advancing human centric personal data	262	Open Knowledge Finland	Lightning Talk
Data plug-and-play: Advancing data portability under the GDPR and beyond	269	CDT	Program Session
Instagram stories and the inverse panopticon	271	Coding Rights	Lightning Talk
Surveillance in a time of upheaval : Why transparency reports about government surveillance is more important than ever	292	Berkman Klein Center for Internet & Society	Program Session
Digital rights in the era of Donald Trump	295	TechFreedom	Program Session
MLATs in the global south: A conversation about the future	299	INTERNETLAB	Program Session
The deanonymization arms race — Machine learning & metadata	305	Data & Society Research Institute, EDRi	Lightning Talk
(How) can algorithms be human rights-compliant?	306	Human Rights Centre, University of Essex	Program Session
Losing face via keeping yours: A Hungarian case of illicit cctv surveillance and how to fight that	307	Hungarian Civil Liberties Union	Program Session
Government hacking: Finding the one exploit to rule them all	313	Bits of Freedom	Program Session
Owning our features: Risks and challenges of the uses of biometric technology in Latin America	320	Derechos Digitales	Program Session
RESOLVED: The US-UK cross border agreement is a boon to human rights worldwide	331	CDT	Program Session
In how many ways can an algorithm be fair?	333	Data & Society Research Institute	Lightning Talk
Walking the cyber talk: Success in building a global, multistakeholder culture of cybersecurity?	341	CDT	Program Session
The long arm of the law: Extraterritoriality of data protection and risks to freedom of expression	354	Center for Technology and Society CETYS	Program Session
How to make privacy usable	371	Independent	Lightning Talk
Surveillance and democracy: Perspectives from the global south	379	Legal Resources Centre	Program Session
The legal framework of human/digital rights in the digital sphere (case Algeria/Morocco)	391	NGO Crossing borders / Hivos	Program Session
BLOQUEIOS.INFO: Monitoring app blocking in Brazil	405	INTERNETLAB	#KeepItOn Summit
Private sector data responsibility: Foundational principles for migrant and refugee data in the US and Europe	411	Leiden University Centre for Innovation	Program Session
Enabling the free flow of data globally. What rules for data transfers?	430	Access Now	Program Session
How to adopt and implement an effective general data protection legislation?	432	Access Now	Program Session
Reforming the e-Privacy Regulation: Will we bring privacy and security into the 21st century?	433	Access Now	Program Session
The outer boundaries of hacking crypto	434	Access Now	Program Session

## ▶ DATA PROTECTION PRIVACY AND DIGITAL SECURITY

Session Title	Session ID	Affiliation	Format
Every plane you take, I'll be watching you. Wait, you're on a train?	435	Access Now	Program Session
All we need is L....privacy by design and by default	436	Access Now	Program Session

## ▶ NET DISCRIMINATION, CONNECTIVITY, AND GOVERNANCE

Session Title	Session ID	Affiliation	Format
Everything we know about internet shutdowns	30	Multiple Organizations	#KeptOn Summit
Digital rights status in Africa	32	Paradigm Initiative Nigeria	Program Session
How to deliver net neutrality to the people	63	epicenter.works	Program Session
Defending against bots, hate speech, and computational propaganda	84	The Oxford Internet Institute, the Annenberg School for Communication in the University of Pennsylvania	Program Session
What's an internet shutdown like? Experiences of disruptions and how to circumvent them	99	Multiple Organizations	#KeptOn Summit
Tearing down the walled gardens: How antitrust enforcement will save the web	116	Yelp	Lightning Talk
Keeping up with the GAFAs: Competition policy and internet openness	135	Mozilla	Lightning Talk
Equal rating innovation challenge winners announcement	139	Mozilla	Program Session
Cybersecurity as an internet governance issue	156	Internet Governance Project	Program Session
Choosing your battle (terrain): Digital rights advocacy and capturing the grounds of debate	196	Sole Practitioner / OpenMedia	Program Session
Advances in measuring internet shutdowns	204	Multiple Organizations	#KeptOn Summit
Sustainable connectivity : Expanding infrastructure and empowering people	205	Center for Technology and Society at FGV	Program Session
Telecoms and internet companies on internet shutdowns: GNI and the Industry Dialogue	242	Multiple Organizations	#KeptOn Summit
Regional fights against internet shutdowns – breakouts!	264	Multiple Organizations	#KeptOn Summit
Multistakeholderism in Action	284	Centre for Communication Governance at National Law University Delhi	Lightning Talk
Beyond post-truth: Algorithms vs Alt_Social	293	Alternative Informatics	Program Session
Brazil-Europe submarine cable (EULALINK): consequences for Internet affordability, neutrality, and governance in Latin America	301	Internet Sem Fronteiras - Brasil	Program Session
Zero-rating done right? Establishing principles and guidelines to address the affordability barrier	353	Wikimedia Foundation	Program Session
Net neutrality and its future in developing world	368	Digital Rights Foundation	Program Session
Governments tell all on internet shutdowns: A conversation with the Freedom Online Coalition	370	Multiple Organizations	#KeptOn Summit
The laws and agreements we want on internet shutdowns	399	Multiple Organizations	#KeptOn Summit

## ▶ OTHERS

Session Title	Session ID	Affiliation	Format
Privatisation of the public domain	47	Wikimedia	Lightning Talk
Fight for your digital rights	54	netzpolitik.org	Lightning Talk
Hasugi — the net needs a hero	72	Independent Filmmaker	Screening
Technology solutions to Iran's environmental crisis	81	Small Media	Program Session
The right to compute	85	George Washington University	Program Session
Meet the funders: An OTR Q&A with donors	96	U.S. Department of State	Program Session
Who controls on-line media?	108	Panoptykon Foundation, European Digital Rights	Program Session
The online space: A new ecosystem for democratic participation	128	IRI	Program Session
Escaping the cat and mouse games: Working together on web sustainability	137	Mozilla	Program Session
Is the internet unhealthy? How do you measure it?	138	Mozilla	Program Session
Deciphering oppression 101	186	Gulf Center for Human Rights	Program Session
Beyond dystopia: The future of human rights technology	214	Carnegie Mellon University	Program Session
GCCS2017: A roadmap for effective engagement	261	Global Partners Digital	Program Session
Don't just show me: Integrating human rights photography into the bigger picture	357	Artivism	Program Session
Funding models for human rights groups	390	ASL19	Program Session
How to work with a graphic designer: A workshop for activists and civil society organizations	400	Derechos Digitales	Program Session
What does the future hold? Mapping scenarios for the future of freedoms and rights	419	The Internet Society	Program Session
Surveillance, Caste Apartheid, and India: The state of surveillance and India's cultural and religious minorities	421	Equality Labs	Program Session
The erosion of democracy: Impacts on society and civil society	438	Access Now	
The future is false positive	525	Bits of Freedom	Lightning Talk
Let's talk about sex toys	499	Access Now	Program Session

## ▶ DEMO ROOM

Session Title	Session ID	Affiliation	Format
Cybersecurity threats in LATAM: Did you know about these "easy" ones?	22	Usuarios Digitales del Ecuador	Demo Room
Taking matters into our hands: Addressing online harassment through [tools]	43	Digital Rights Foundation	Demo Room
Nametag: A Slack for community organizers	50	Nametag	Demo Room
What do we owe to end users?: The ethics and duties of non-tech groups creating and commissioning tech tools for human rights documentation	57	Physicians for Human Rights	Demo Room
Real Tech for real people...because we must!	58	Real Tech	Demo Room
Refugee apps: Successes and challenges	65	Columbia University	Demo Room

## ▶ DEMO ROOM

Session Title	Session ID	Affiliation	Format
Collecting evidence of Internet censorship in Southeast Asia and beyond	68	OONI	Demo Room
Best practices for building and maintaining threat and information sharing communities.	77	Prudent Innovation	Demo Room
Open data in closed societies: Opportunities and barriers	78	Small Media	Demo Room
DATA4CHAN.GE: Data-driven storytelling for human rights	80	Small Media	Demo Room
Telling data-driven narratives about internet regulation and access	105	Measurement Lab	Demo Room
Klarity: Fighting local corruption with an online community	106	Klarity	Demo Room

How to do a digital security risk assessment in your organization	182	ISC project	Demo Room
Good bot / bad bot	189	Independent	Demo Room
How to improve the tools available for awareness-raising about risks to journalists in Europe	195	Centre for Media Pluralism and Media Freedom, at the European University Institute	Demo Room
To be an intermediary for the Helpline	211	Access Now	Demo Room
Putting productivity and fun into E2EE: Encryption beyond simple messaging.	212	Wire	Demo Room
Regional digital security observatory: An initiative from scratch	220	Fundación Acceso	Demo Room
Crowdsourcing data and analysis for human rights organisations	221	University of Cambridge	Demo Room
Community ISPs: Building alternative networks	236	ARTIGO 19	Demo Room
A community-led organizational security assessment process	254	Internews	Demo Room
Tahoe-GUI/"Gridsync": Secure, decentralized cloud storage made easy	273	Least Authority (leastauthority.com)	Demo Room
Step into our lab: Human rights technology prototypes workshop	283	Benetech	Demo Room
uProxy Air: How to make VPNs reliable for human rights activists	289	Jigsaw / Google	Demo Room
Data and disconnection: The future of censorship measurement tools	294	Open Technology Institute at New America (OTI)	Demo Room

## ▶ DEMO ROOM

Session Title	Session ID	Affiliation	Format
DIY KIT: Privacy and digital security for citizens — how to analyze websites	297	Karisma Foundation	Demo Room
Usable security and lessons learned from engaging with different high-risk users	298		Demo Room
Encrypt at the source: Someone's life will depend on it	302	Mullvad and Zifra	Demo Room
Privacy-preserving federated identity management with UnlimitID	308	University College London	Demo Room
Where to go on contextualizing and publishing network measurements	316	VE inteligente	Demo Room
Technology, creative thinking and storytelling for advocacy campaigns	323	Global Voices and Witness	Demo Room
Mobil-Eyes Us: Live-streaming technology and tactics for network activation	330	WITNESS	Demo Room
Discovering precedent in the case law haystack: Machine learning for human rights with Uwazi	332	HURIDOCS	Demo Room
Check and keep: Advanced verification and archival tools for journalists and researchers	336	Meedan	Demo Room
Bridge: Engage a global audience across languages	340	Meedan	Demo Room
Up by law: Strengthening strategies for legal action in the global south	366	Social Media Exchange in Beirut	Demo Room
The internet freedom app store: We require alternatives to the two gatekeepers, Google and Apple	383	Guardian Project	Demo Room
Mecodify: An open-source tool for big data analysis and visualisation	393	Independent Researcher	Demo Room
Evincible: Build congressional engagement	394	Rebuilding Alliance	Demo Room
Toosheh: Stream data files through satellite TV channels	418	NetFreedom Pioneers	Demo Room
Beyond manuals and translations: Digital security for local contexts	422	Jensiat and Global Voices	Demo Room
What comes after localization: Promoting privacy and circumvention tools in local communities	423	Localization Lab	Demo Room
Security planner	480	Citizen Lab	Demo Room

There's more to come with sessions focusing on topics like:

- ▶ Feminist principles of the internet are for everybody: Creating policies for the realization of women's rights
- ▶ The global state of net neutrality: Progress in what direction?
- ▶ Children's rights & business in a digital world: Beyond child protection
- ▶ Refugees in transit
- ▶ Copyright reform: Towards a Digital Single Market, or more of the same?
- ▶ Strategic litigation to strengthen human rights in Europe
- ▶ Breaking encryption: An increasingly heated but static debate with no end or resolution in sight. Where should/must it go next?
- ▶ Pulling the pen: How draconian cybercrime legislations are impacting the quality of journalism around the world
- ▶ The kaleidoscope of data localisation: Privacy, security, and the digital economy
- ▶ Open data and privacy in smart cities: Unlocking value, protecting norms
- ▶ Cracks in the armor: Will Law Surveillance Standards in the U.S. take down the EU-US Privacy Shield?
- ▶ Connecting the unconnected — Innovative ways to provide affordable access to the internet
- ▶ Safe abortion hotlines : How technologies shape women's health in a restricted setting
