Draft Program Session List

THE 8TH ANNUAL SUMMIT
ON HUMAN RIGHTS
IN THE DIGITAL AGE

11-14 JUNE 2019
LAICO HOTEL
AND THE PALAIS DES CONGRÈS
TUNIS, TUNISIA

BROUGHT TO YOU BY **accessnow**

Table of Contents

The RightsCon Tunis 2019 Program Highlights

RightsCon (rightscon.org) is the world's leading summit on human rights in the digital age, bringing together business leaders, general counsels, government representatives, technologists, and human rights advocates from around the world to break down silos, forge partnerships, and drive large-scale, real-world change toward a more free, open, and connected world.

Together at RightsCon Tunis, our first summit hosted in the Middle East and North Africa, more than 2500 expert practitioners will come together across over 400 sessions to shape, contribute to, and drive forward the global agenda for the future of our human rights.

This Draft Program Session List is the first glimpse of RightsCon Tunis and the outcome of our annual call for proposals, showcasing the community-built sessions that will shape this year's program.

In our final program, you can expect a navigable sessions schedule, arranged by specific and defined Tracks and Trails — all toward the goal of providing a more connected program experience. Please note, session titles are subject to change.

Diversity and Inclusion

RightsCon Tunis program features sessions for and from all gender groups and multiple language speakers.

51% IDENTIFYING AS FEMALE

- 51% Identifying as female
- 34% Identifying as male
- 4% Identifying as non-binary
- 11% Did not disclose

The program includes sessions in **ENGLISH** **FRENCH** **ARABIC**

Session Formats

The variety of session formats in the RightsCon program reflects the diversity of goals our community is working to achieve.

FIRESIDE CHAT
An intimate and direct conversation between maximum two or three people on stage.

WORKSHOP
An interactive table-based session focusing on a single issue or question.

PANEL
At RightsCon, we encourage interactive, discussion-oriented formats instead of traditional-style panels with PowerPoints or other presentations.

TECH DEMO
A hands-on presentation of a new technology, tool, or technical project.

LIGHTNING TALK
A 5-15 minute TED-talk style presentation featuring a single speaker on a provocative new ideas, initiative, or challenge to the RightsCon community.

STRATEGIC ROUNDTABLE
A substantive roundtable discussion in an intimate setting (max. 25 people) that can bring company executives face-to-face with frontline activists or gather a civil society coalition to think through emerging challenges.

FISHBOWL
A roundtable without the table. These participant-driven sessions foster interactive and in-depth discussions among those in the room.

MEETUP
An informal meeting on a particular issue area that provides participants with the opportunity to network, connect, and forge partnerships for their work. New for RightsCon Tunis!

SOLVE A PROBLEM
A new initiative with rich discussion and greater time to develop strategies in resolving a tricky problem.

Theme 1 Artificial Intelligence, Automation, and Algorithmic Accountability

RightsCon
Tunis 2019
